

# WATCHARAPOL CHAROENSUK

## FRONG ฟร็องซ์

### OBJECTIVE

Studying and developing expertise in the field of Data, along with applying principles of economics and data management, is aimed at utilizing this understanding for business strategic planning, market trend forecasting, and strategic decision-making. This is to ensure sustained success for the companies I collaborate with or for future enterprises. I firmly believe that the fusion of knowledge and proficiency in both economics and data management is a crucial component in establishing resilience and achieving success in a data-centric business environment.
